

## STORM RECOVERY CONTINUES

The storm last June is still not over for some people. Now we have spring floods to deal with also. Therefore the Pitcairn- Turtle Creek- Wilkins Area Long Term Recovery Team is still at work, too.

If you still need to make repairs or replace items, we would like to hear from you.

We are also looking for people who can lend their skills and time. Needs include carpentry, plumbing, replacing retaining walls, concrete, plaster and more.

Members of the Recovery Team include pastors and members of local congregations, regional disaster responders and representatives from social service agencies. The team works cooperatively with local municipal leaders & emergency coordinators.
